

## RY0406 ADHESION PROMOTER

### FIELD OF APPLICATION

Metal, glass, plastic, ceramic, stoneware, stone, concrete and terracotta.

### INFORMATION

This special product promotes the adhesion over all inert materials with low or absent porosity. RY0406 is the additive, boosting grip and chemical-physical performances of Prestige and Decogrip Solution ranges.

### INSTRUCTIONS

Add from 2 to 4% of RY0406 to the coating. Mix it accurately. Spread it not beyond seven days. After that time, add further 2% of RY0406.

### PACKAGING

50 ml

Storage  
> 5°C

Painting  
> 15°C

Ready to use

Efficiency  
7 days
