Venusian clouds	04
Moon lands	08
Andromeda lights	12
Martian droplets	16
Effects and colours	20

The colours combinations of the following pages just represent one proposal among the endless possibilities offered by Rio Verde coatings range.

VENUSIAN CLOUDS

SPARKLING CEMENT EFFECT

Spread two Vintage Prestige colours here and there. Dab the coatings by means of a brush. Let it dry off. Spread Golden Prestige by means of a plastic brush, rubbing with care in all directions until the drying is complete.

MOON LANDS

METAL HYPER MATERIC EFFECT

Spread an abundant coat of Golden Prestige. Apply the coating by means of a putty knife and at the same time expose it to a hot air jet. Let it dry off. Apply a coat of contrasting colour on the surface. Remove immediately the product by means of a cloth.

MARTIAN DROPLETS

STRIPPED METAL EFFECT

Spread homogeneously a coat of Vintage Prestige. Let it dry off. Apply an abundant second coat of the same colour. Comb the coating by means of a plastic brush and at the same time expose it to a hot air jet. Let it dry off. Spread a coat of a Golden Prestige contrasting colour on the surface. Remove immediately the product by means of a cloth. Let it dry off. Sand with fine grit sandpaper to let the base colour emerge.

Precious Refined Exclusive

Five shades of gold, studied to enrich the spaces with light. Glamorous topcoats for the contemporary luxury. The Golden Style effects of Rio Verde coatings turn every space into a little jewel.

EFFECTS

VENUSIAN CLOUDS

The overlapping of an irregular metallic layer brings out the cementitious resin effect. The colour vibrates inside the stain overlapping, lending a deep and contemporary look to the wood.

MOON LANDS

Ripples and reliefs characterise the metallic surface and make it precious. A hyper materic effect, in which the colours have a strong three-dimensionality.

ANDROMEDA LIGHTS

A sophisticated weaving of colours. A surprising dialogue between the ultra-matt basecoat and the metallic topcoat. The final result is a surface, that is soft to the touch and rich like a precious fabric.

MARTIAN DROPLETS

Fine sedimentations hang between the Vintage and the Golden universe. The basecoat brightness appears on the metallic surface, proposing atmospheres of past times.

Golden Prestige coatings enhance the interior design

The shades of precious metals turn every piece of furniture into a unique piece. The exotic style switches from the industrial style to endless combinations. We offer precious shades for every material.

OTHER EFFECTS

You can try other techniques applying Golden Prestige coatings

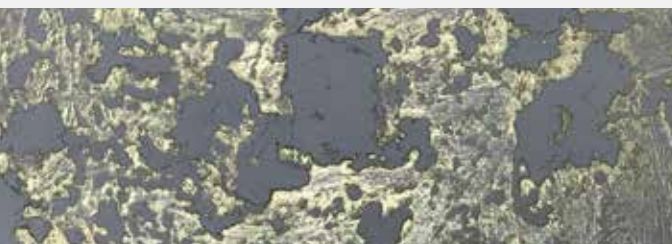

We can achieve amazing effects playing with creativity, few and simple tools and the colour chart offered by the Golden Prestige range.

Overlap a colour-soaked lace on the dry surface and press it with a roller. In that way we realise romantic patterns, which become contemporary thanks to the coloured metal effect.

Push a lace on a high and still not dry layer of colour to create ripples, enhanced by Golden Prestige topcoat.

Sand the surface layer of dry Golden Prestige: the material aspect of the basecoat, before applied by means of a spatula, and a bright dévoré effect stand out.

We recreate geometric textures working the surface by means of combs.

The colours represented in the sheets are purely as a reference and they can vary according to the type of wood and the application method.

The samples here represented were realised on fir wood.

Concerning the colour combinations with Vintage Prestige topcoats, we recommend to consult the catalogue of Vintage Style range.
